# SR50 Portable capacitance discharge thermocouple welder

## **Product information**

The SR-50 is a portable battery / mains powered capacitance discharge welder which has been specifically designed for making thermocouple junction welds and impact welds both in the workshop and out on site. It has sufficient power to weld wires of up to 0.9mm diameter and has a battery charge life of at least 500 welds on maximum power. It can also be run from the mains supply via the charger. A wait lamp with interlock is fitted to prevent the user from using the welder until the current set charge is reached. The SR50 case is waterproof, light and robust and made from a rigid durable plastic with an easy grip

#### **Technical information**

**Energy output** 0 to 30 joules

Weld capacity Up to 2 x 0.9 mm dia.

Battery life At least 500 welds on full power

Charging time 4 hours
Weight 3kg

Dimensions270 x 250 x 120mmLED indicationIndicates battery status

Wait lamp To prevent premature discharge.
Weld switch Releases energy from capacitors

Potentiometer Sets energy level

On/off switch and power on indicator

## **Delivery includes**

**Pliers** 

Black lead with croc clip

Magnifier

Welding goggles Spare carbons(2) Battery charger

# **Options**

Foot switch

Pen & plate welding jig Impact welding clip Tweezer electrodes

Pliers

Carbon electrodes
